Helpdesk & IT Support Engineer with 5+ years of experience delivering fast, SLA-driven support across macOS and Windows environments for 500+ users. Specializes in troubleshooting, identity & access management (Okta, SSO, MFA), and endpoint management using Intune and MDM solutions. Improves support efficiency through automation, streamlined onboarding, and a strong focus on user experience.

PROFESSIONAL EXPERIENCE

Babbel GmbH, Berlin, Germany

Nov'23 – Present

Internal IT Engineer (Platform and Enablement Team)

- Deliver L2/L3 helpdesk support for 500+ users, resolving 40–60 weekly tickets across macOS and Windows environments within SLA targets
- Perform incident management and root cause analysis, reducing recurring issues and improving resolution efficiency
- Administer Microsoft Intune and SimpleMDM, ensuring secure endpoint management, compliance, and automated provisioning
- Manage identity & access management (Okta, SSO, MFA), supporting secure authentication and user lifecycle processes
- Support SaaS applications including Google Workspace, Slack, Jira, Confluence, ensuring seamless user operations
- Maintain and improve onboarding/offboarding workflows, reducing provisioning time and access delays
- Contribute to documentation and knowledge base articles, improving self-service support and reducing ticket volume

Everphone GmbH, Berlin, Germany

Jul'23 – Nov'23

Freelancer - IT Engineer

- Provided L1/L2 technical support for distributed users, resolving hardware, software, and SaaS-related issues
- Implemented Freshservice ticketing system, improving ticket tracking, SLA visibility, and response workflows
- Managed IT asset lifecycle and device provisioning, ensuring compliance and efficient onboarding
- Delivered remote support for international teams across multiple environments

Wayfair GmbH, Berlin, Germany

AUG'20 – JUN'23

Service Engineer 2 (Employee Tech)

- Handled high-volume helpdesk tickets (L1–L3), supporting global users in a fast-paced SaaS environment
- Led migration of 6,000+ endpoints from SCCM to Microsoft Intune, improving endpoint security and automation
- Managed incident resolution, service requests, and escalation handling within SLA requirements
- Administered ServiceNow ticketing system and contributed to ITSM process improvements
- Collaborated with cross-functional teams to resolve technical issues and optimize workflows
- Improved IT service delivery processes, reducing manual effort and improving response times

Babbel GmbH, Berlin, Germany

AUG'19 – DEC'16

Junior IT Engineer

- Provided L1 helpdesk support, resolving user issues related to hardware, software, and network access
- Supported user onboarding/offboarding and access management across internal systems
- Assisted with documentation and internal knowledge base updates

Infosys, Bengaluru, India

OCT'16 – FEB'19

Senior Process Executive, British Telecom

- Delivered technical support via helpdesk systems, resolving incidents related to network access and user credentials
- Managed ticket queues and SLA compliance, ensuring timely resolution of user requests
- Provided remote troubleshooting and user support for enterprise systems

EDUCATION

SRH Hochschule, Berlin, Germany
MSc in Computer Science, Focused on Cyber Security

MAR'19 - JUN'22

Visvesvaraya Technological University (VTU)
Bachelor of Engineering, Major in Computer Science and Engineering

JUN'12 - JUN'19
